

Matéo Lévesque

Student in linguistics

Me and My Interests

I am 21 years old and originally from the Gaspésian Peninsula, so I grew up close to nature, which made me an outdoor enthusiast. Mountain biking and rock climbing are my favorite summer activities, and I sometimes go backcountry snowboarding when summer goes dormant. I am also passionate about languages and linguistics; I am currently pursuing a bachelor's degree in language sciences and intend to continue my studies at the graduate level. I also have a strong interest in computer science and in optimizing computer systems.
